

Southbridge Community Electricity

Southbridge Community Electricity is a program in development by the Town of Southbridge to provide residents and businesses with new, Town-vetted options for electricity supply. The program will be open to electricity customers in Southbridge – whether they are a resident, a business, a renter or an owner.

The draft plan for the program is available for public review through February 12, 2024. On the program website, <https://southbridgecommunityelectricity.com/> you can download a copy

of the draft plan, learn more about the proposed program, and submit comments on the draft plan.

On February 12, 2024, there will be a public hearing on that plan at 6:30 pm before the Town Council meeting at 7 pm.

Southbridge Community Electricity will not replace National Grid, the electric utility in Southbridge, which will continue to deliver your electricity, repair power outages, maintain the electricity grid and manage all billing.

Visit the Southbridge Community Electricity program at <https://southbridgecommunityelectricity.com>
